All of Us

## *Interested in Joining the AIS/AES Alumni Association Board of Directors?*

The AIS/AES Alumni Association Board of Directors leaves its doors open for interested alumni to apply to join the Board or to assist with projects.

Our primary and most important association project is hosting the “All-Classes-Invited Reunions.” Our next all-classes-invited reunion will be in the summer of 2021. As we move closer towards the planning phase, we are looking to fill more Director positions so that we are adequately staffed to host this big event. By the end of this year we will be wearing our **Reunion Committee** hats and begin searching for a venue...one which we should commit to by next spring.

In addition to the all-classes-reunions, our board also helps with promoting and assisting with mini-reunions, alumni dinners, socials and picnics. Board members work with alumni and former and current staff of the school to heighten awareness of the association and support the mission. ***The mission of the AIS/AES Alumni Association is to promote and facilitate the lifelong communication and camaraderie of alumni, faculty and staff.*** We also share alumni family and school news and communicate upcoming reunions and celebrations on both our website and Facebook page.

## *India Lives in All of Us*

Directors are energetic team players who enjoy planning and executing events, working on the web site or across social media and contributing to the success of the alumni association. Most important, we are looking for enthusiasm and a willing spirit to pitch in with various projects!

We are an informal group who likes to have fun while communicating and working with people who shared the experience of India and our school. Over the years, we've also been able to help provide friendship and encouragement to our AIS/AES family members going through rough times. It is what friends do.

Any member of the alumni association may apply to join the Board of Directors. We define "alumni" as classmates who attended AIS or AES, whether or not they physically graduated from the school. If you are interested in joining our team, please submit your name in nomination by sending an email to our association President, Mary Williamson, at [mary@aisaes.org](mailto:mary@aisaes.org)
