

SELF-DECLARATION HEALTH FORM

TO: ALL AES PARENTS AND STAFF MEMBERS
FROM: THE DIRECTOR'S OFFICE
DATE: 9 March 2020

With upcoming holidays and spring break at the end of this month, many AES'ers will be traveling. As you know, passengers returning from abroad can expect thermal screening. According to the government, as of yesterday a total of 726,122 travelers from 7,108 flights had been screened for Coronavirus (COVID-19) at airports in India. As the airports build up their capacity, more and more flights will be screened regardless of their point of origin.

A new requirement at the airport has prompted this quick message to everyone.

In addition to the normal immigration form that we fill in when we fly into India, a new self-declaration health form is required of **all** international passengers. The airport and airlines may not be able to provide you a copy. Some people have had lengthy waits at immigration to get a fresh copy of the form.

Below is the embedded copy of the form for you to view quickly. For printing and filling the form out, the PDF file is attached and [it is linked here](#). We strongly encourage all international travelers to print **two** copies of this form for every family member and have it filled out prior to your arrival in India. Both forms will be stamped by the health screening authorities, who will keep one copy and return the second. This second copy has to be handed over to the passport control agent.

We appreciate that many people who have traveled in recent days to Level 3 countries have reported to our Health Office after their return. These families have self-quarantined at our request. Other families who have traveled to Level 2 countries have stopped at the Health Office for regular temperature checks.

Stay calm and healthy, and wash your hands!

Ministry of Health and Family Welfare
Government of India
